Motor Mowers, etc.	20-21
Tractors & Combines	21-22

GEN 41 F

AC-DELCO DIVISION OF GENERAL MOTORS LTD., DUNSTABLE, ENGLAND

HEAT RANGE AND CROSS-REFERENCE GUIDE

In the foregoing pages of this folder the type of plug listed is the one that should normally be used. The AC Heat Range system does, however, give flexibility to deal with special conditions, and if, for example, oiling or fouling is experienced with the plug normally recommended, change to a hotter running type as indicated in the chart below. Conversely, if overheating is experienced, use a colder running plug.
