Motorcycle Version

This has an identical specification, except that it is fitted with a kickstarter and has no pedals. It is available to order in either 50 cc or 80 cc versions.

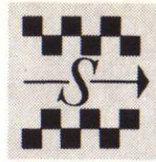

AJW can supply kits to convert a Moped into a Motorcycle.

Extras Available

1. Tuned cylinder barrel and 20 mm carburettor.
2. Heavy duty fully damped 5" plus movement Cross front forks.

Competition Versions

The AJW "Wolfhound S" can be supplied against a firm order in the following basic versions.

1. 50 cc "Scrambler" without lights but fitted with
 - a) heavy duty fully damped 5" plus movement Cross front forks.
 - b) standard P6 engine with flywheel magneto, kickstarter, and Simonini Cross Transformation including 22 mm carburettor.
2. 50 cc "Scrambler" as version 1, but fitted with 50 cc Competition P6 engine.
- 2A. 50 cc "Scrambler" as version 2, but fitted with 50 cc Competition engine and Simonini Transformation.
3. 80 cc "Scrambler" without lights, but fitted with
 - a) heavy duty fully damped 5" plus movement Cross front forks.
 - b) standard P6 80 cc engine with flywheel magneto, kickstarter, transformed barrel and 24 mm carburettor.
4. 50 cc "Regularity" with lights, Cross forks, tuned barrel and 20 mm carburettor, high level air cleaner and waterproofing.
5. 80 cc "Regularity" with equipment similar to Version 4.

The final detail specification of any "Wolfhound S" is at the decision of the purchaser. For further details of these competition machines see leaflet "AJW Competition Machines", or discuss with your AJW dealer.
