MOTOR IGNITION APPLIANCES.

A Practical Treatise on the application of Electricity in the production of the Ignition Spark in Petrol Motors.

By T. H. HAWLEY.

"Those who wish to be fully conversant with the way in which electricity is applied in the production of the ignition spark in petrol motors . . . should procure the VALUABLE text-book just published on the subject . . . It is entitled "Motor Ignition Appliances," and has been VERY ABLY WRITTEN by Mr. T. H. Hawley . . . We have looked carefully through the book, and can find NO point on which Mr. Hawley has not given information, much of it of a valuable kind, either to the technical expert, or to the owner in his novitiate."—*Bicycling News*.
