**WHEELS** Chromium-plated wide section rims, ball-bearing hubs and rustless spokes.

**BOTTOM BRACKET** Best cycle type with full sized ball bearings.

**HANDLE BARS** Fitted with double roller brake levers, celluloid grips, and expander bolt for height adjustment.

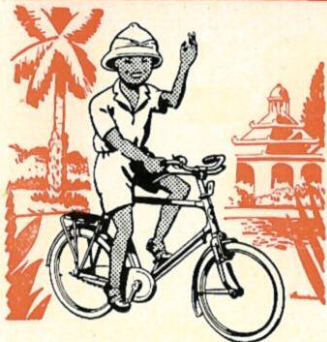

**FRAME AND FORK** Best quality English steel tubing, double-panelled lining. Chromium-plated fork crown cover.

**CHAIN COVER** Semi-enclosed type, embossed and lined.

**BRAKES** Chromium-plated front and rear rim brakes, with rubber blocks.

**TYRES** 16 in. by  $1\frac{1}{2}$  in. Dunlop pneumatic.

**THE *Ace* 16 P.B.J. DE-LUXE JUVENILE CYCLE**

## **Ace** QUALITY *Sells...*

"Ace" Juvenile Cycles and "Flying Ace" Tricycles are not toys; they are cycles in miniature, manufactured by cycle engineers to full-size cycle specifications and standards. They are attractively finished in a wide choice of plain and flamboyant colours with chromium-plated bright parts. In England, these features sell "Ace" and "Flying Ace" products, in the face of considerable competition; in your district there is probably nothing to compare with them. And there are 40 models from which to choose.

**CHARLES TWIGG & CO. (Export Import) LTD., 38 PARK STREET, LONDON, W.1**

They mean a good DEAL to you
