

**Folds in an instant.
In an instant you ride it.**

plico[®]

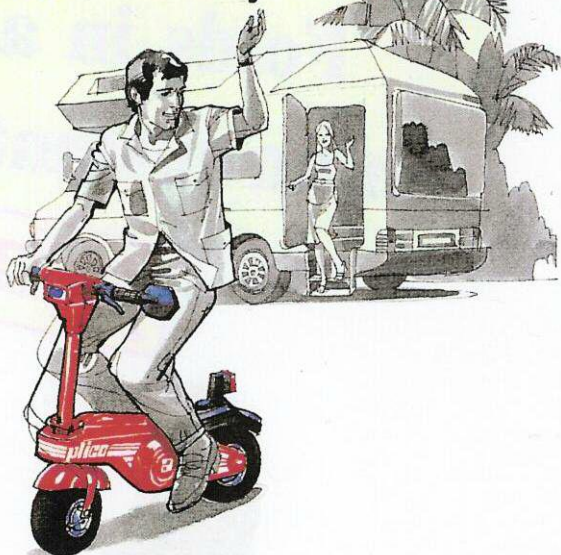

A hundred different uses during leisure time and on holiday

In the camper

For moving around quickly and cheaply in the neighbourhood.

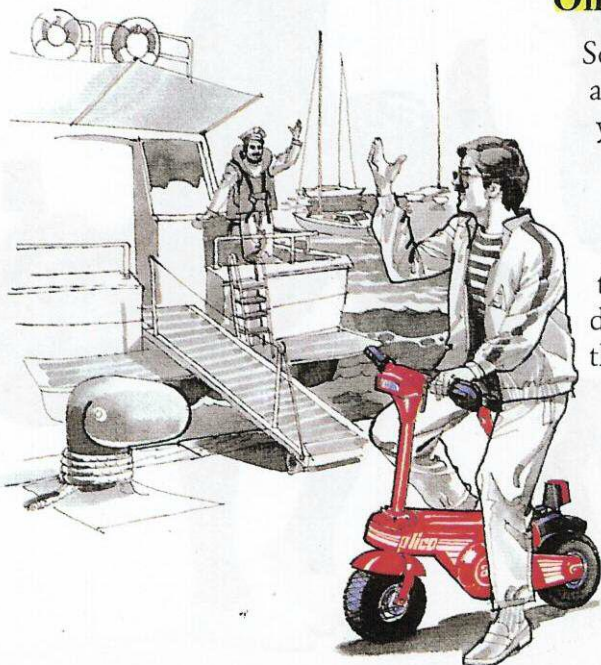

Plico takes up the same space as a bag, and is always ready to be taken out, bright and happy for a ride, a trip, or to drop in at the disco, or for an unplanned adventure.

On the boat

Sooner or later the sea reaches an end and with Plico on shore you can get around much more easily!

If you don't want to find yourself shipbound just when there are new places to discover and explore, Plico is the ideal shipmate.

In the boot of the car

How many times have you had to go to places that can't be reached by car?

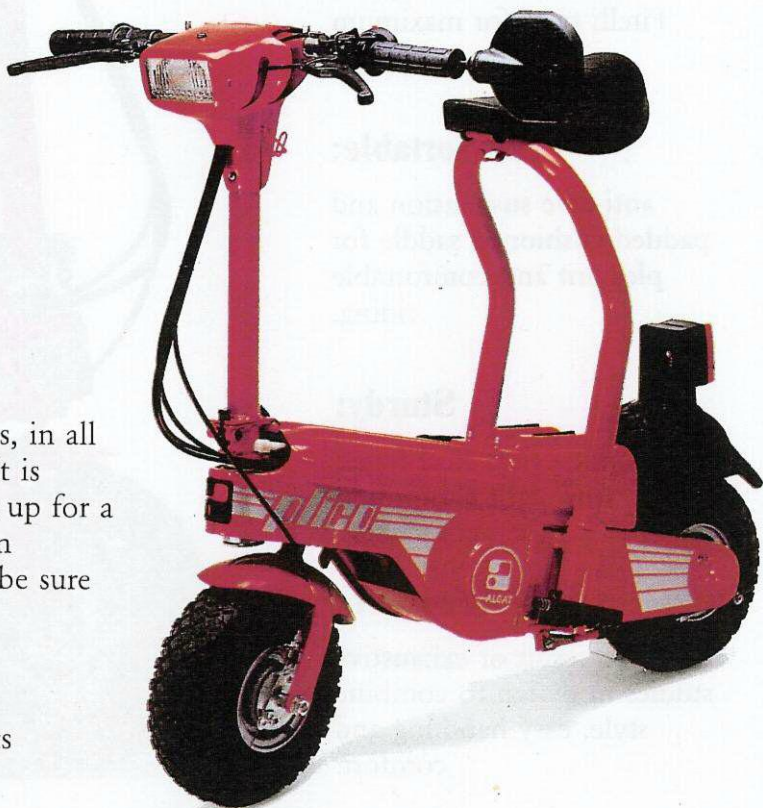

Plico will take you hunting, fishing, mushroom-picking wherever you like with the greatest of ease, and it can carry lots of things, thanks to the special luggage hook.

In a bag

On trains, on planes, in all these places where it is better not to queue up for a taxi, and not rely on public transport to be sure of arriving exactly where you want to.

Due to its limited dimensions Plico fits easily into a bag.

THE MINI-MAX

Fast:

it reaches a speed of 40 km/h, which is the maximum allowed by Italian road traffic legislation, has a 2-speed automatic clutch.

Safe:

steel bodywork, handlebar with automatic lock, and Pirelli tyres for maximum safety.

Comfortable:

anti-dive suspension and padded cushioned saddle for pleasant and comfortable riding.

Sturdy:

electrophoretical steel frame with light aluminium Grimeca wheels.

Attractive:

the result of exhaustive studies in design to combine style, easy handling and comfort.

Practical:

Plico folds up in three easy movements, and can be carried or used in an instant.

Lightweight:

weighs less than 20 kg, and can be easily carried in a bag, or even as it is thanks to the stem which forms the handle.

Cheap to run:

70 kilometers to just one litre of petrol fuel. Overall maximum autonomy of 100 kilometers.

Powerful:

prestigious 22 cc Fox engine, equivalent to 1 HP, and electronic ignition system.

Homologation:

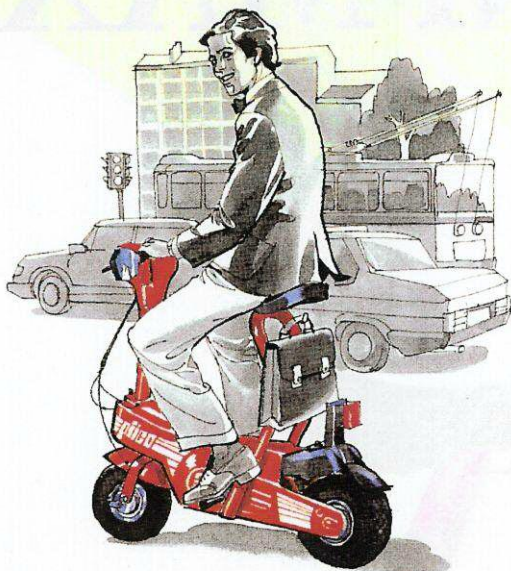

motor scooter authorized by the Italian Ministry of Transport for use on public roads; crash helmet not required for adults over 18 years of age.

A hundred different uses around the town too

In the town centre

If cars can't enter, if there are pedestrian areas, if the traffic is chaotic and if parking is impossible... then Plico is just what you need.

And, thanks to a special luggage hook, you can hang your purchases.

For work and sport

No parking or safety problems!

Once you arrive, Plico folds up and can be kept at your desk or in the locker room until you are ready to leave. And no more queues at the traffic lights!

For emergencies

Has your car broken down, or has run out of petrol? Don't worry! Plico will get you to the nearest garage or petrol station within minutes. And it occupies next to no space in the boot of your car. Don't leave it at home when you go away!

Technical features

2-speed automatic gears.
Less than 20 kg. in weight.
The Company may modify the product, to improve its quality, without notice.

Algat.

Experience and innovation in all industrial sectors

The highest standard of mechanical production.

This is the challenge of Algat: a challenge achieved is the design and manufacture of highly sophisticated components destined to a wide range of industrial sectors.

In addition, Algat creates highly innovative finished products — one of which is Plico — resulting from attentive market studies and original and efficient design.

In the four plants indicated in the Piedmont and Lombardy regions of Italy, the most advanced production techniques plus the vast experience achieved over almost forty years is utilized.

Indeed, in 1949 Algat already produced mechanical toys and small patented cars with real engine and enbloc clutch, and exporting them in Europe, America and Middle East.

Above experience linked to international technical know-how, created Plico - the ideal solution for the numerous traffic problems everyday.
