

MOPEDS AHOY!

The "Rynstroom" sails into Shoreham Harbour twice every week—each time with more and more Dutch Ankermatic mopeds in her hold. Only a few hundred yards away—just across the harbour on the main Brighton-Worthing Road — is "Anker House," the new depot and offices of Nedermotive Agencies, the U.K. Concessionaires. From here Controller, David Startup, is marketing these world-famous, fuel-injected mopeds through a dealer network rapidly extending throughout the length and breadth of the country.

Not for a long time has there been such a response to the introduction of a new machine. Within the space of only a few months the Ankermatic has awakened an awareness in the trade of the tremendous potential market now beginning to open up in Britain for a Continental-type moped such as only the Dutch have the know-how and experience to manufacture.

The "Rynstroom" is sailing into a new era of two-wheel prosperity. Be sure you're "aboard" for it's "Up ANKER and away!"
