

Seven Tyres in 1939 Avon Range

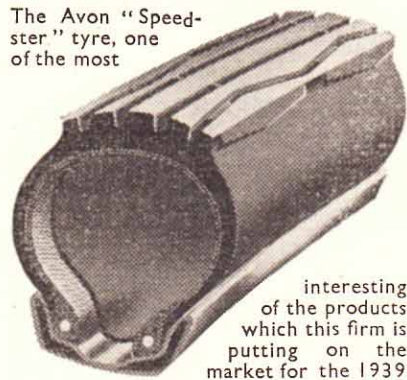

Liveliness and Strength

LIVELINESS with strength, easy traction yet anti-skid treads, are the outstanding features of the new 1939 Avon cycle tyres. Patterns have been improved, casing strengthened, and tread rubber toughened. Each tyre is scientifically built for its particular job, carefully designed, and offered to the cycling world after searching road and laboratory tests. All tyres are guaranteed.

The Speedster

There are seven tyres in the Avon range, the one illustrated below—the "Speedster," priced at 5s. 6d.—being one of the most attractive. It is guaranteed for eighteen months. It is a lively, free-running black tyre with an entirely new tread pattern which is claimed to be exceptionally speedy in use. Tube costs 2s.

The Avon "Speedster" tyre, one of the most

interesting of the products which this firm is putting on the market for the 1939 season

Other tyres manufactured by this firm are: The "Stonehenge" (7s.); the "Cromlech" (wired 5s. 3d., beaded 6s. 3d.); the "Avebury" (3s. 3d.); the "Carrier" (7s. 6d.); the "Popular Carrier" (5s. 9d.); and the "Tandem Speed" (7s. 6d.).

WRITE FOR CATALOGUES

Manufacturers have recently issued their new season's catalogues with full details of their new lines. Have you studied them?

All firms advertising in this paper will be pleased to forward their catalogues to readers on request.

When writing, please mention THE BICYCLE.
