### Ten Thousand Corgis

**W**HEN the 10,000th Corgi came off the Brockhouse production line at Southport just before Christmas, the directors decided to make it a Christmas present to one of the works staff.

A unanimous vote decided that Jack Wignall, works manager of Brockhouse Engineering (Southport), who has been with the organization since 1917, should be the lucky man, and it was duly presented to him by John Brockhouse, chairman and managing director, at the firm's annual dance.
