DAYTON leads the world

Gerrit Peters—the World's Professional Pursuit Champion 1946—and many other famous riders choose Dayton Cycles to help them to victory. They know that featherweight lightness, rigidity, and easy running are the qualities that make all the difference to their chances.

DAYTON 'ELITE'
The Lighter Bike

GERRIT PETERS
*World's Professional Pursuit
Champion 1946.*

One of the new Dayton 'Quality' mounts now in production; designed for speed, lightness, easy-running and durability. Comprising 73° - 71° angles and the latest Dayton refinements.
