set and touring bag among its many special features.

CHAS. DAY MANUFACTURING CO., LTD. No. 42

A machine for the fast club rider named "the 531 super club" will be the centre of attraction on the Chas. Day Manufacturing Co stand, whose Dayton machines have achieved world-wide fame. The machine is priced at £11 11s., and has a first-class specification, including Chater-Lea fittings, 531 tubing, B17 flyer saddle, Russ type forks, and high pressure tyres. A "super-super" model will also be on view, of which the specification is mainly as in

The "Dayton Snipe"

the model detailed above, but which also includes an Osgear, two resilion brakes, and brilliant flamboyant finish, and which is priced at £14 13s. 6d.

The "Dayton Snipe" is one of the best known of the range, and this year several interesting improvements have been made, which will make the machine even more popular among discriminating cyclists than ever. Built with A. and P. tubing, and with a first-class specification, the "Snipe" will be on the market at £7 17s. 6d.
