NOW - The **Britax** CYCLE

SPECIALLY DESIGNED
TO TAKE THE FAMOUS

Ducati
'CUCCIOLO'
CYCLE MOTOR

Manufactured by the makers of the famous Royal Enfield cycle the Britax frame is specially designed to give the additional safety, strength, dependability and riding comfort which are absolutely essential to the enjoyment of cycle motoring at its best.

Built to give a low riding position equally suitable for men or women, the Britax frame is specially reinforced and equipped with pressed steel girder forks with rubber suspension and rebound dampers providing superior steering and comfort for the rider. Powerful internal expanding brakes ensure ample stopping power. The Britax cycle and Ducati engine form a smart and efficient unit which any cycle-motorist would be proud to own.
