... had only a brief degen...
... holiday, time could be saved by give shelter on a warm day. In down against the force of gales
... voyaging to the Isle of Mull, or the evening great salmon leap (Continued on page 4.)

The point of this tyre is...

— it has deep moulded slots which let the tread spread out and grip the road. IT STOPS SKIDS. Yet it's full of life. For, except when you corner or brake, you ride on the backbone of tough rubber.

Fit a pair of these new-design tyres. They feel safer and last longer.

I love the Marlborough Plains. Now, a century ago, a Maori

10,700 miles in 100 days

Read what Evelyn Hamilton, who set up this amazing record, says of the Englebert A.D. Tyres which carried her safely throughout. After this gruelling test she finds them **"still good for thousands more!"** Fit Englebert A.D. to your cycle for big mileage. Skid proof from start to finish.

I finished my 100 days' ride on Sunday, the 14th inst., using the same pair of Englebert A.D. Tyres throughout.

It gives me much pleasure to express my appreciation of the way in which they stood up to this test—and they are still good for thousands more.

EVELYN HAMILTON
