

# Always a good show . . .

Wherever you see them—out and about on the roads—on the track— or in trials—an EXCELSIOR will put up a good show all ways—in dependability, in speed and in economical running. The EXCELSIOR Range includes Lightweight Motor Cycles and Autobyks from 98 c.c. to 250 c.c. with sprung frames and telescopic forks.

The Super Autobyk— leader of its class! Several Models to choose from, each with individual features.

The popular 196 c.c. EXCELSIOR "ROAD-MASTER," a model with good road performance and outstanding in value

*Stop Press!*

The sensation of the show— the new 250 c.c.—absolutely outstanding in construction, in performance and in value. Sprung frames to all motor cycles.
