MOTOR

# YSSIMO

Il ciclomotore più moderno in più versioni

mod. "standard", kick o pedali

mod. "confort", kick

mod. "sport", kick

mod. "super confort", kick

## SOME ADVANTAGE OF «ISSIMO»

- Remarkable space which enables the legs to pass through easily while getting on and out of the moped and a wide, very comfortable foot-board, which allows the sports drive.
- Telescopic suspension of the front wheel.  
Very strong oil bath fork with long stroke.  
2.50 x 16" large section tyres which combine a better elasticity with a greater roadability and a longer life.
- Two-stroke engine with automatic transmission in oil bath.  
Aluminium enlarged cylinder head with centrifugal fan which assures an excellent cooling and a constant power output even in very bad conditions.
- Overhead, super comfort two-seater saddle to have access to the tool-box.  
Very light, easy to be replaced plastic mudguards, can undergo blows without any buckling.  
Extended exhaust system which assures a remarkable ride noiselessness.  
Telescopic shock absorbers which offer an excellent roadability and the maximum ride comfort.
- The new type of watertight pivotable headlight and dashboard where the speedometer can be inserted, antitheft padlock in special steel.  
The fuel tank line assures the best protection (legs-guard screen) and built-in case.

## TECHNICAL SPECIFICATIONS

*ENGINE: 2 stroke, single cylinder, forced air-cooling.*

*BORE AND STROKE: 38,8 x 42 mm.*

*DISPLACEMENT: 49,6 cc.*

*COMPRESSION RATIO: 8,6 to 1.*

*CARBURETTOR: Dell'Orto SHA 14/12 with semiautomatic choke.*

*LUBRICATION SYSTEM: gasoline with 2% oil (ratio 50 : 1)*

*IGNITION AND LIGHTING: by flywheel magneto 6V 18W with internal coil.*

*STARTING: kickstarter or pedals.*

*TRANSMISSION: centrifugal automatic clutch and primary transmission by helicoidal gears running-in oil. Secondary transmission by roller chain - 112 x 3/16".*

*FRAME: super strong tubular steel.*

*MUDGUARDS: plastic unbreakable material*

*SUSPENSIONS: front telescopic fork, rear swing arm with telescopic shocks.*

*WHEELS: steel or aluminium rims front and rear WMO 1.5 x 16" with front and rear brake drum  $\varnothing$  90 mm.*

*TIRES: front and rear 2.1/2 x 16"*

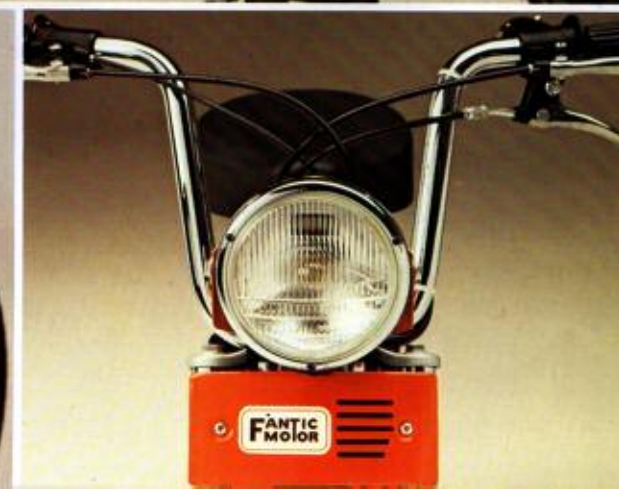

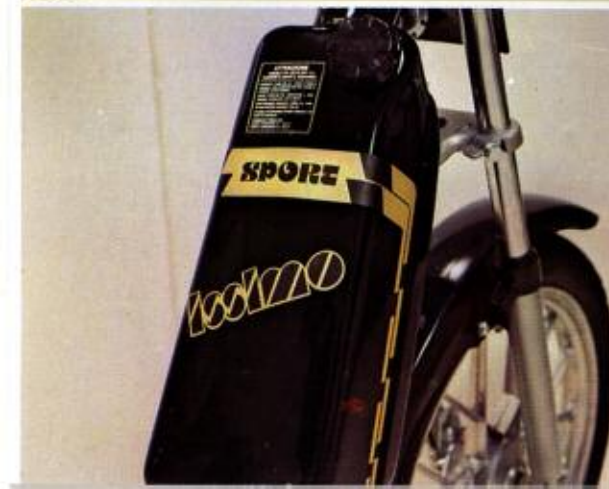

*STANDARD EQUIPMENT: illuminated speedometer, steering lock, one rear view mirror.*

*FUEL TANK: steel plate, capacity approx. lt. 3,2 including reserve, 3 positions gas tap.*

*FUEL RATE: lt. 2,5/100 Km*

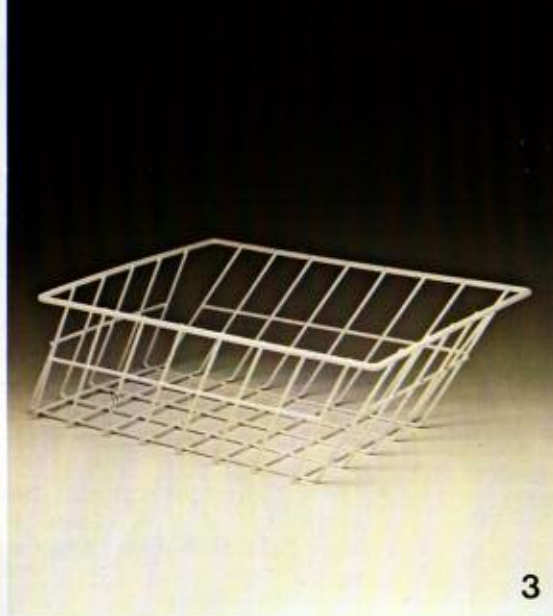

*DRY WEIGHT: Kg. 47.*

*MAX SPEED: conform the moped legislation.*
