

The NEW Automatic Moped 300

JAWA

130 Miles Per Gallon!

Engine: air cooled two-stroke single 50cc. The connecting rod is mounted in a needle bearing.

Transmission: Automatic centrifugal clutch gear driven primary transmission, featuring an all-new engine disengagement feature. Single-speed gearbox. All shafts run in ball bearings.

Ignition: electronic ignition, ultra simple and ultra reliable, requires neither maintenance nor adjustment.

Frame: sturdy open frame welded steel tubes and sections. Great attention has been paid to the driver's comfort. The design of the seat and layout of the controls contribute to pleasant, effortless driving. New improved front fork with rubber cushion.

Wheels: chromium plated rims are fitted with 2 1/4" X 16" Barum tires.

Brakes: efficient, mechanically controlled drum brakes on both wheels. Brake drum diameter 85 mm, lining width 20 mm.

Suspension: Front, telescopic fork with rubber cushion boots. Rear, new swing arm and shock absorbers, and a soft vinyl covered seat.

Fuel tank: a filling capacity of .8 gallon including an emergency fuel reserve, with a fuel shut-off-reserve valve.

Standard equipment: vinyl covered seat, handy tool kit, tire pump, electric horn, luggage carrier, steering lock, rear view mirror and new brilliant tail lamp, with side reflectors, heavy duty center stand.

Weight: 97 pounds.
