

JAWA-EZ
Economy Moped

***Real economy
real fun!***

JAWA ECONOMY MOPED

You'll love it from the very first moment. It feels so stable, with its large-diameter wheels, strong welded steel frame, extra cushioned shock absorbers, improved road lights, brake lights, indicators, and horn – brake lights operate whichever brake you use.

This moped offers real economic riding, giving freedom to the whole family whether its Mum wishing to pop up to the shops (has a handy shopping basket on the back), or Dad wanting a run-about alternative to the car, or the over 16's wanting their own transport.

The Economy is superbly finished in Red, Metallic Blue, Black, Metallic Silver, or White. There is very little that can go wrong, and your JAWA Dealer is always on hand if you should need his help.

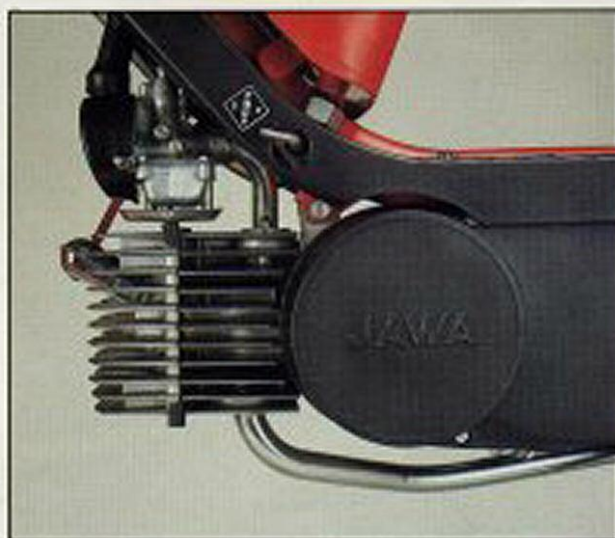

This model is now factory modified to give even more dependability.

Spares are very easy to obtain, and are also very reasonably priced, so repairs, when they are eventually necessary, will not be a big problem.

Specification JAWA Economy Moped

Engine	Air cooled, two-stroke, single cylinder
Swept volume	49 cc
Bore/stroke	39/41 mm
Compression ratio	1:9
