**LOHMANN
MOTOR**

LOHMANN

COMPRESSION IGNITION CYCLEMOTOR

Offers:

- Easy starting
- Silent Running
- Ample power
- Economy
- Lightness

Compression Ignition

Dispensing with sparking plugs, magnetos, carburetors, the Lohmann Compression Ignition Cyclemotor guarantees simplicity and reliability.

Perfect Balance

Fitted unobtrusively below the cycle's bottom bracket, the unit is ideally positioned and actually improves the stability of the machine.

Scientific Silencing

On the road, the Lohmann is pleasantly free from noise, thanks to scientific silencing of both the intake and exhaust systems.

Transmission

Driving the rear wheel by means of a rubber roller which cannot harm the tyre, the Lohmann transmission is easily adjustable. The drive will not slip, even on the wettest roads.

Power Output

No need to pedal with the Lohmann! It will carry you up a 1 in 8 gradient and reach 20 m. p. h. on level roads.

Economy

Well over 300 miles can be covered on a gallon of fuel. The initial cost is only 24 gns. and, thanks to sturdy construction and the elimination of "electrics" and carburettor, maintenance costs are negligible.

Technical Data:

Capacity	18 c.c.
Bore	28 m. m.
Stroke	30 m. m.
Power Output	75 b. h. p. at 6,000 r. p. m.
Speed	20 m. p. h.
Fuel Consumption	350 m. p. g.
Maximum Gradient	1 in 8
Weight	11 lbs.

Recommended fuel, Petrol and Motor Oil (25 to 1)

**The Lohmann Cylemotor Dispenses
with the**

Magneto! Sparking Plug! Carburettor!
