

*The MO-PED that's  
really made for two*

VESTING *Pesetta*

PRICE

**89** GNS.  
INC. P. TAX

The Vesting "Pesetta" is not just a Mo-ped with a pillion seat added as an afterthought; it's designed from the start with two passengers in mind. Here's why:-

Independently operating pillion suspension as well as rear wheel swinging arm suspension. With "two-up", the pillion springing acts separately and ensures greater comfort and safety for the pillion passenger. For solo riding the system automatically adjusts itself to the reduced weight.

Extra strong "frame," made from tubing with a 2½ m/m wall thickness.

Reinforced tread on rear tyre.

Powerful HMW 49.9 cc engine, developing 2.2 b.h.p., two-speed gear box and oil bath transmission.

Pedal release control which overcomes all mechanical drag like an ordinary cycle if required.

Full equipment, including lighting, electric horn, thief-proof lock, speedometer etc.

*For dealership on the Vesting Mo-ped write to Sole Concessionaires for the U.K*

**MESSRS. STUART & PAYNE LTD., 4, Broad Street Place, London, E.C.2**
