

**YOU ADD TO YOUR PROFIT—
AND REPUTATION—WHEN YOU SELL A
BENELUX EQUIPPED BICYCLE**

Yes, increased sales and higher profits depend on giving the cyclists what they want.

And when they demand a higher grade specification that includes a Cyclo Benelux gear, then everybody is satisfied — dealer and customer alike. Fit a Cyclo Benelux to those “shelf-stickers” and see them vanish.

Cyclo Benelux

CYCLO GEAR CO. LTD.
ASTON · BIRMINGHAM 6.

THE MO-PED THAT'S REALLY MADE FOR TWO!

The Vesting “Pesetta” is not just a Mo-ped with a pillion seat added as an afterthought; it's designed from the start with two passengers in mind. Here's why: independently operating pillion suspension as well as rear wheel swinging arm suspension. With “two-up”, the pillion springing acts separately and ensures greater comfort and safety for the pillion passenger. For solo riding the system automatically adjusts itself to the reduced weight.

EXTRA STRONG FRAME, made from tubing with 2½ m/m. wall thickness.

REINFORCED TREAD on rear tyre.

POWERFUL HMW 49.9 cc engine, developing 2.2 b.h.p.

Two-speed gear box and oil bath transmission.

PEDAL RELEASE CONTROL which overcomes all mechanical drag enabling machine to be pedalled like an ordinary cycle if required.

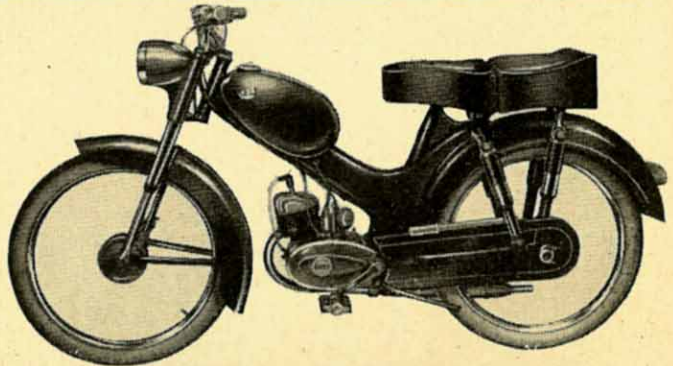

FULL EQUIPMENT, including lighting, electric horn, thief-proof lock, speedometer, etc.

89 Gns. including Purchase Tax.

For details of Vesting Pesetta dealerships write to the concessionaires for U.K. (and distributors of H.M.W. engine spares):
