 **G1-FD**
YAMAHA 80

**THE YAMAHA G1-FD
LATEST TREND IN
A GREAT TRADITION**

The Yamaha G1-FD is a spirited new sprinter in the great tradition of the famous Yamaha 80 YG-1 series. The formula's simple—provided you have the know-how of Yamaha's prize-winning designers. Just take all the YG-1 characteristics, developed in the no-quarter world of Grand Prix racing, add a few more refinements and there it is, an eye-catching motorcycle bound to win wide appreciation among cycling enthusiasts. The G1-FD has a more powerful head lamp, for example, a fold-in type foot rest and modern square type tail lamp. And it comes in vivid new colors that further enhance the distinctive styling. The G1-FD. A new winner from the maker of the world's finest motorbikes.

Pull-away power, years ahead styling.

Pull-away power. No more dawdling in creep-and-beep traffic. The G1-FD gives you the rapid acceleration you need to get out in front and stay there, whether it be downtown or on the open highway. And that extra power is a big safety factor, too. In fact, it could be a lifesaver. But championship performance isn't all you get with the G1-FD. Available in two colors, Brilliant Red or Adrian Blue, the G1-FD sets new standards in safety, su-

perior performance and handsome good looks. Check it over and see if you don't agree that the G1-FD is unchallenged in its class.

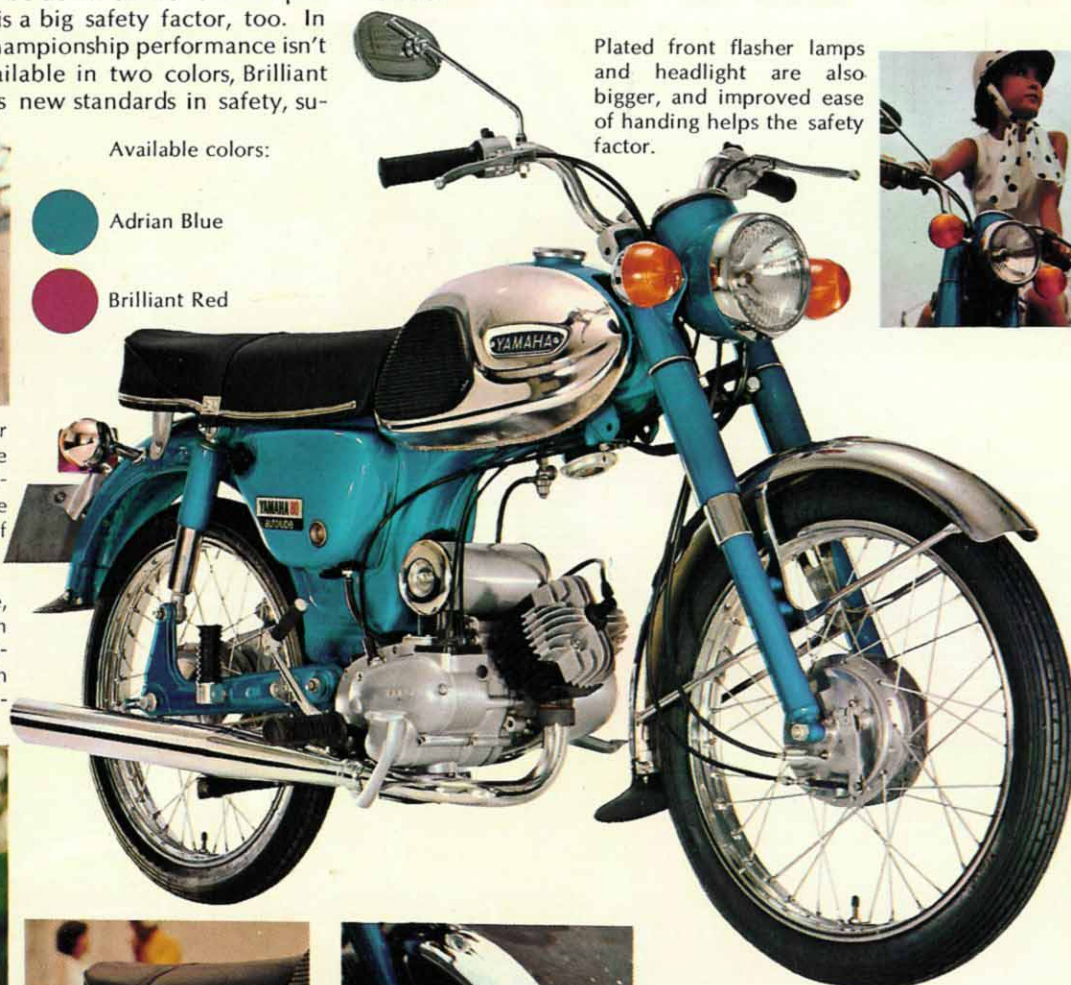

Enlarged square tail light and flasher lamps help make the G1-FD one of the safest motorcycles ever made. They ensure that other motorists see you on the darkest night and are clearly aware of your intentions.

The world-famous Rotary Valve engine, pioneered and perfected by Yamaha in Grand Prix racing, provides for stepped-up acceleration, effortless shifting with the 4-speed transmission and more efficient use of fuel.

The smooth functioning of this two-stroke engine is aided by another Yamaha exclusive, the Autolube lubrication system that feeds a measured supply of oil to the engine.

- Available colors:
-  Adrian Blue
 -  Brilliant Red

Plated front flasher lamps and headlight are also bigger, and improved ease of handling helps the safety factor.

Water and dust-proof brakes are another exclusive with Yamaha, and one of the many reasons you'll find the G1-FD ranked so highly by safety-conscious motorcycle experts. The brakes enable you to bring the machine to a swift, safe stop.

SPECIFICATIONS

PERFORMANCE

Max. speed range85-90 km/h (53-55 mph)
 Climbing ability20 degrees
 Min. turning radius1,780 mm (70.1 in.)
 Min. braking distance ...7 m @35 km/h (23 ft. @22 mph)

ENGINE

Lubrication systemAutolube
 Bore & Stroke47 x 42 mm
 (1.850 x 1.654 in.)

Displacement73 cc (4.45 cu. in.)
 Compression ratio.....6.8:1
 Max. horsepower7 Hp @7,000 rpm
 Max. torque.....0.7 kg-m (5.1 ft-lb)
 @5,000 rpm

Starting systemPrimary kick starter
 Transmission.....4-speed

DIMENSIONS

Overall length.....1,815 mm (71.5 in.)
 Overall width.....625 mm (24.6 in.)

Overall height960 mm (37.8 in.)
 Wheelbase1,145 mm (45.1 in.)
 Min. ground clearance... 150 mm (5.9 in.)

WEIGHT (Net)72 kgs. (159 lbs.)

TIRES Front & Rear ...2.50-17-4PR

SUSPENSION Front ...Telescopic fork

RearSwinging arm

FUEL TANK CAPACITY

6.5 litre (1.7 US gal.)

OIL TANK CAPACITY...1.1 litre (1.2 US qt.)
