

AJW

Fox Cub

Engine:

Type 2-str single
 Bore x Stroke 38.8 x 42 mm
 Capacity 49.7 cc
 Compression ratio 12:1
 Carburettors 1/12 mm Dell'Orto
 Maximum power 1.7 @ 6500
 Fuel tank 2.8 l

Transmission:

Gears/Clutch single/A

Electrical:

Ignition 6v/magneto
 Starting pedal

Notes: first production model.

Braking:

Front/rear 105 mm drums
 Front Tyre 2.25 x 17 road
 Rear Tyre 2.25 x 17 road

Suspension:

Front/Rear T/SA

Dimensions:

Ground clearance 145 mm
 Seat height 720 mm
 Wheelbase 1120 mm
 Overall length 1740 mm
 Dry Weight 60 kg

Performance:

Top speed 50 km/h
 Fuel consumption 2.5 l/100 km

AJW Motorcycles was founded by Arthur John Wheaton in 1926. The firm originally used Anzani, Rudge and Villiers engines. In 1946 the company changed ownership but production of the 500 cc Fox models continued with most machines

going for export. The first of the Fox Cub series was produced in 1958 using a 50 cc Minarelli engine and since then all AJW bikes have been powered by Minarelli engines. In recent years all production has been subcontracted to Italian manufacturers to AJW designs and specifications. The name of AJW has changed ownership for a second time but production is continuing with a British built moped, the Fox Cub, powered by a 50 cc Minarelli engine. Plans are in hand, however, to replace this with a British designed and built engine.

Head Office. Chinwood Ltd., 80A Weyhill Road, Andover, Hampshire, SP10 3NP.
