GRUBB'S "CONTINENTAL"

Following the announcement in last week's "Bicycle" that Messrs Grubbs, of Brixton, are exhibiting an "Alcyon" Continental model, the firm have been overwhelmed with inquiries for details. Owing to Customs difficulties there has been some delay in printing the necessary lists, but Grubbs have the work well in hand, and will be despatching them in the course of a day or so. Will enquirers please note, as the number received has been so great that Grubbs cannot reply to them individually.
