- ★ 1 h.p. petrol driven engine
- ★ Real gear-lever for forward, neutral and reverse. Accelerator pedal and foot and hand brakes

The **ATCO**
JUNIOR
Safety first
TRAINER

Show this to your Father

If every car owner to-day had been driving since the age of six, road sense and quick reflex would long ago have become instinctive. Result—a nation of skilled and safe drivers. Let your children have the advantage you could not have. Buy them this Trainer. It is perfectly safe and is a Trainer, not a toy. They will enjoy learning. You yourself can drive it and teach them. It will be money well spent because they will be truly “veteran” motorists long before they go on the road.

This is a national cause, the building of a nation of safe drivers and well-grounded, practical “mechanics” for a mechanised era. Use your influence with the Head Master of the Preparatory School. EVERY child should have this training. Be among the first to recognize the need of youth-training recommended by the Lords’ Select Committee on Road Accidents. Why not arrange a demonstration in your garden?

Learn how to drive in your garden. Become a “veteran” driver long before you have to take the test. The Atco Trainer can be driven in narrow paths. You’ll soon be an expert. A 68-page Manual of Instruction tells you how a petrol engine works. In this mechanical age a fellow can’t start too early to become “machine-minded.”

Write for fully-illustrated catalogue to the originators and sole makers: Charles H. Pugh Ltd., Whitworth Works, Birmingham 9.
