

**The ATCO**  
MINIATURE MOTOR CAR!  
is not a toy but a small scaled-down patrol driven motor car reproducing the controls of a full size car in a form which children can easily master...

**Education.**  
Your children should be taught how to drive a car from the age of six — instructions in road safety should form part of the school curriculum.

**Charles H. Pugh, Ltd.**  
SAFETY FIRST  
**ATCO**  
TRAINER

**Please come in**  
and inspect this model — there will be no obligation incurred...  
We will demonstrate the **ATCO TRAINER** in your own garden...  
Please ask for list!

### *Displaying the Atco Trainer*

The new "Atco Junior Safety First Trainer," a miniature motor-car which was introduced about a month ago by Charles H. Pugh, Ltd., has been given a fine display by Angel, Son and Cray, Ltd., the well-known ironmongery firm, of Guildford. The large window was given entirely to showing the trainer, it being realised by the firm that new products of this nature which are taken into stock by the ironmonger, need effective display to help get them known to the public
