LET 'THE BICYCLE' BE YOUR
 STAND-BY-STAND GUIDE

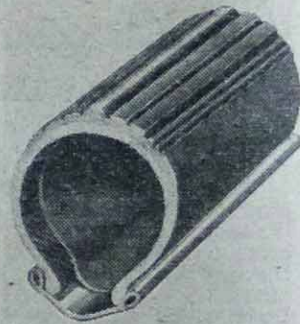

NOVEMBER 12, 1952

STAND No. 158

**Avon India Rubber
 Co., Ltd.**

AVON'S lightest tyre, designed for speed work, is worth more than just a cursory glance. This is the "Speedster," a thin-walled, neatly treaded cover made for fast road work, and not too light to stand up to a great deal of use.

Among other cycling tyres which will be on display on the stand are the "Roadster," designed for a lot of hard work, and the "Yeoman," a lighter tyre which will appeal to the fast

The lightest of the Avon tyre range, the Speedster, is a lively cover.

tourist. Tandemists and juniors have not been forgotten by Avons. The tandem rider especially is catered for with a tyre which, although "oversize," is still comparatively light and very lively.

Although not of such great interest to the average cyclist, those who have to use carrier machines will be interested in the Avon tyre designed especially for the arduous work which these machines have to do. Avon's claim that the "Carrier" tyre is of "motor-cycle strength."

London, W.C.1.
