

BSA

EASY RIDERS

THE JUNIOR

Easy Rider

Sensational single speed automatic moped, engineered for those who appreciate simplicity and reliability. Powered by a new REED VALVE engine giving exceptional acceleration and now offered with kick start or pedal. A strong spine tube frame contains over $\frac{3}{4}$ gallon of petrol plus 15 mile reserve. Front and rear wheels, fitted with road-gripping wide section tyres, have full spring travel suspension that gives a secure smooth ride and leaves the opposition rigid. Padded seat and handlebars are both adjustable to size giving fingertip control for horn, lights and engine stop.

The full range of accessories are illustrated below. Steering lock and leg shields now included as standard (UK). Voted "good value" by MOTORING WHICH?

Road tax and insurance normally under £15 and consumption is up to 140 m.p.g.

Junior

The BSA Junior is designed as a safe and simple-to-drive fun bike for children six to twelve years old. Control is confined to one twist grip throttle and hand controlled front and rear brakes. A new REED VALVE engine gives the Junior powerful acceleration yet maximum speed of no more than 25 m.p.h.

An ignition cut-out button by the rider's thumb and a covered rear chain are standard safety features.

An ultra-quiet silencer makes this suitable for garden and any off-road area. Monoshock rear suspension and knobby tyres give real competition bike handling and looks.

Accessories

Front and Rear Mudflaps
Lever Covers
Throttle Guard
Set of numbers
Helmet Decal
BSA 'T' Shirt 24" and 26"

BSA Co. Ltd. including all associated companies reserve the right to vary the specification of all motorcycles and spare parts without notice and the information in this leaflet does not therefore constitute a term of any sale. All descriptions and claims are given and made in good faith but are intended to apply generally. Variations in performance and construction on individual machines may occur. Performance on any particular occasion will also be affected by the conditions, circumstances and the rider.
