**IT'S THE NEW
CAZENAVE WITH THE
AUTOMATIC CLUTCH!**

Here's a French Revolution in mopeds that will mean thousands of new moped riders—especially ladies. Gear changing has kept many people from buying mopeds before. Now their worries are over! The Cazenave has an *automatic* clutch. It's incredibly simple to handle. Any cyclist can learn to ride it in a

Only **£55·17·6d** tax inc.

This superb machine is going to be a first-class selling proposition—appealing to many people who've never been potential customers before. So order your stocks right away!

few minutes. Speed is *completely* controlled by a twist grip throttle. No gear changing at all. Braking is firm and reliable and telescopic forks iron out bumps in the road. Other features: complete lighting system, 1½ gal. tank, centre stand, electric horn and tool bag.

CAZENAVE
