Choice of new 'with-it' colours. Poppy Red, Blue, Aubergine, Groovy Green or Blaze. All with colour mudguards and chain cover.

PRICE £26.95 Tax Paid

## Red Feather

MODEL RF2

Frame sizes and angles 19½" 70° x 74°, 21" 72° x 74°, 22½" 72° x 72° TRUWEL LIGHTWEIGHT TUBES are brazed up into feature cut Continental lugs and bracket. All the usual brazed on fittings. Modern rake 2¼" offset oval section fork blades are brazed into forged or pressed crown and solid fork ends.

Top quality chrome plated HIGH PRESSURE 27" pattern sided steel rims (26" on 19½"), with small flange light race steel hubs. 36 rustless 14G steel spokes to each wheel. Track nuts to spindles. Amber sided High Pressure speed tyres, Butyl non-leak tubes with Presta valves.

French HURET SVELTO 5-speed derailleur gear. ½" racing chain. 46T best quality chrome steel chainset. 14-22T freewheel cluster.

SWISS WEINMANN alloy side-pull brakes with hooded racing levers and cable end protectors. Junior ½" alloy shallow drop handlebars in short extension alloy stem for 19½" size. Maes pattern ½" alloy racing bars in alloy stem to suit 21" and 22½" (All-rounder optional on any size).

Coloured cable casing, handlebar tape and end stops. Racing saddle with plastic top on sprung frame. Alloy inflator. Double sided steel racing pedals. Mudguards made of high quality plastic in contrast colours (option of stainless steel half guards).

Finish: Poppy Red or Blue.

PRICE £35.75 Tax Paid

## Red Feather

MODEL RF1

18½" genuine miniature brazed on 70° x 72° angle SPORTS FRAME with all the usual BRAZED ON FITTINGS associated with the best frames. Truvel lightweight tubes are built into FEATURE CUT LUGS. Fork has oval blades with pressed crown and SOLID BRAZED IN ENDS.

Top quality chrome plated 24" Endrick rims with small flange light race steel hubs. 36 rustless 14G steel spokes to each wheel. Track nuts to spindles. Whitewall 24" x 1⅜" Sports tyres with tough tread, BUTYL NON-LEAK tubes.

French HURET SVELTO 5-SPEED derailleur gear, simple and efficient. ½" racing chain. 40T ½" x ½" best quality chrome steel chainset. 14-22T freewheel cluster.

SWISS WEINMANN ALLOY side-pull brakes which close reach hooded levers for small hands. Cable end protectors. Junior ½" shallow drop handlebars (or Allrounder type) in short extension alloy stem. Coloured cable casing, handlebar tape and end stops.

Plastic racing saddle, alloy pump. Double sided steel racing pedals. Plastic mudguards in special size with mudflap fitted.

This sports cycle is designed to give a balanced weight-to-wheel ratio. This makes it safer and more manoeuvrable than a conventional flat handlebar type cycle — proved by club and racing cyclists the world over.

Finish: Poppy Red or Blue with contrast panels and bands.

PRICE £35.75 Tax Paid

## Debonair

MODEL 28

Frame sizes and angles 21" 72° x 74°, 22½" 72° x 72°. TRUWEL LIGHTWEIGHT TUBES are brazed up into feature cut CONTINENTAL LUGS and bracket. All the usual brazed on fittings. Modern rake 2¼" offset oval section fork blades are brazed into forged crown and solid fork ends.

Top quality chrome plated HIGH PRESSURE 27" pattern sided steel rims with small flange light race steel hubs. 36 rustless 14G steel spokes to each wheel. Track nuts to spindles. Amber sided High Pressure speed tyres, Butyl non-leak tubes with Presta valves.

French SIMPLEX PRESTIGE or HURET SVELTO derailleur gear. ½" racing chain. 46T best quality chrome steel chainset. 14-22T freewheel cluster.

Swiss Weinmann VAINQUEUR 999 centre-pull alloy brakes with hooded racing levers, and cable end protectors, fitted with PVC DAWES HOODS for riding on the tops. Maes pattern ½" alloy racing bars in alloy stem (All-rounder optional). Coloured cable casing, handlebar tape and end stops. Alloy 17" Inflator.

Double sided steel racing pedals. Mudguards made of high quality plastic in pearl lustre contrast colours (option of stainless steel half guards).

Finish: Copper colour with contrast panels and bands. Model name on top tube. Metal embossed head badge.

PRICE £38.25 Tax Paid

# Medallion

MODEL 40

Frame sizes and angles 21" 72° x 74°, 22½" 72° x 72°. High grade lightweight tubes in BRONZE WELDED FRAME with patented feature cut head sleeves chrome plated. All the usual brazed on fittings. Modern rake 2½" offset oval section fork blades are brazed into FORGED CROWN and solid fork ends.

Top quality chrome plated High Pressure 27" pattern sided steel rims with small flange light race steel hubs. 36 rustless 14G steel spokes to each wheel. TRACK NUTS to spindles. Amber sided High Pressure speed tyres, Butyl non-leak tubes with Presta valves.

French SIMPLEX PRESTIGE or HURET SVELTO derailleur gear. ½" racing chain. 46T best quality chrome steel chainset. 14-22T freewheel cluster.

Swiss Weinmann VAINQUEUR 999 centre-pull alloy brakes with hooded racing levers, and cable end protectors fitted with PVC Dawes hoods for riding on the tops. Maes pattern 1½" alloy racing bars in alloy stem. (All-rounder optional). Coloured cable casing, handlebar tape and end stops.

Alloy 17" inflator. Double sided steel racing pedals. Mudguards made of high quality plastic in contrast colour (option of stainless steel half guards).

Finish: Brilliant Yellow with contrast panels and bands. Model name on top tube. Metal embossed head badge.

PRICE £38-25 Tax Paid

# Celeste

5-SPEED MODEL 24

The foundation of the NEW CELESTE sports model is the DAWES DEVELOPED BRONZE WELDED FRAME, built of high carbon tubing and fitted with CHROMIUM PLATED HEAD MOTIFS of distinctive appearance. These have been granted a BRITISH PATENT. The bronze welding is an expensive process but has been proved to be the strongest form of joint, being extensively used in the manufacture of aeroplanes and racing cars where the highest stresses are experienced.

The frames are produced in sizes 19½", 21" and 22½", with resilient oval fork blades in hot forged crown. Carefully balanced chain stay length, fork rake and bracket height combine to give positive handling at all speeds. Brazed-on pump pegs, lamp boss, cable eyes.

Wheels are built with INTERLACED RUSTLESS SPOKES for GREATER RIGIDITY, and shod with lively Amber sided Speed 27" tyres (26" on 19½" frame).

Maes alloy handlebars with light alloy stem and SWISS PRECISION built Weinmann brakes ensure lightness with strength. HURET SVELTO 5-speed gears are fitted.

The sporty saddle has been found by extensive trials throughout Europe to be extremely comfortable, and quite unaffected by rain — an important feature, and a great improvement on leather.

All Dawes cycles are guaranteed RUSTPROOFED by BONDERISING PROCESS — you can't see it, but it ensures the lustrous finish will last longer than most others!

Choose from Blaze, Yellow, Groovy Green, Aubergine and Poppy Red, new colours chosen for their brilliance and durability. Mudguards in contrasting colours make the Celeste one of the smartest sports cycles available.

PRICE £35-75 Tax Paid

# Celeste 10-speed

MODEL 24/10

Extra speed and easier hill climbing can be achieved by following current racing practice of using 10-speed derailing mechanisms in conjunction with double chain-wheel sets.

Dawes offer you just this with the Celeste Model 24/10, with 46-49T CHAINRINGS and the LATEST CHANGING MECHANISM.

PRICE £38-75 Tax Paid

## Kingpin 500

MODELS KP.500B KP.500C KP.500E

Designed for both male and female riders, its size can be altered by means of quick release to suit an adult or a child. Inside leg measurements range from 28"-36", and reach can be adjusted between 12" and 22".

Weighing only 32 lb. due to the many light components used, this cycle gives an easy and safe ride.

Wheels have extra spokes for strength, and are shod with semi-balloon 500A (20½") non-skid whitewall tyres (recommended pressure 35 lb./psi.). Special sided rims and powerful alloy brakes with studded brake pads ensure efficient stopping.

KP.500B	3-speed gear with trigger control
KP.500C	3-speed gear. Miller dynamo lighting
KP.500E	3-speed gear and G.H.6 dyno hub

All versions are fitted with alloy rear carrier. Alloy prop stand, white rubber pedals, mudflap, finger moulded coloured grips, front and rear lamp brackets, stainless steel guards, new 5392 bag in tartan material with QR and handles, alloy pump.

Finish: Leaf Green, Flamboyant Blue or Aubergine. Optional extra: Front carrier and basket.

PRICES KP.500B £36.50 KP.500C £39.50 KP.500E £41.25 All Tax Paid

## Newpin 20

MODELS NP.20A NP.20B NP.20E

Strong Universal style bronze welded frame, similar to Kingpin. 20" whitewall roadster tyres. Alloy rear carrier with spring clip. Improved comfort saddle with sprung undercarriage. Alloy caliper brakes. White plastic pump. White rubber pedals. Hi-Lo continental style handlebars and stem. White hand grips. Front lamp bracket. Quick release adjustment of saddle and handlebar height by flick lever. (To increase tension release the lever and give half turn on finger nut and re-tighten lever.

NP.20A	Single speed gear
NP.20B	3-speed gear
NP.20E	3-speed gear and G.H.6

Finish: Peacock Blue, Blaze, Gold, Yellow or Aubergine with steel mudguards fitted with mudflap (optional with Feran alloy rustless mudguards).

Accessories available: 5348 Strap fitting bag. 5366 Quick release holdall. 5392 Bag with handles and Q.R. Chromium plated basket and carrier. Alloy prop stand (as standard on KP.500).

PRICES NP.20A £29.95 NP.20B £33.25 NP.20E £37.95 All Tax Paid

## Newpin Take-a-Part

MODEL NP.20TA

Specification identical to the single speed Newpin with these exceptions. Coaster back pedal brake. Caliper front hand brake. Double leg prop stand. No rear carrier. Take-Apart mechanism.

Please ensure that the clip is fastened correctly and snapped into position. It is essential that the two Allen screws are maintained in adjustment to ensure that there is no movement at the joint otherwise wear will take place and clip may not fasten securely.

This light and inexpensive compact cycle can be taken apart or clicked together in two seconds; takes up only 34" x 28" space.

The quick acting back pedalling Coaster brake gives perfect braking in all weathers. Ideal for car drivers, caravanners, campers, flat dwellers, boat-owners, pilots, yachtsmen, and weight-watchers.

The double prop stand allows the rear portion to stand upright on its own, leaving two hand free to pack away the front, and simplify re-assembly.

Colour: Peacock Blue.

PRICE £31.50 Tax Paid

## Folding Newpin

MODELS NP.20AH NP.20BH

Hinged version of Standard Newpin

"Take the cycle away with you at weekends and holiday time."

"Drive out to the quiet country lanes and really enjoy cycling."

"Park further out and ride to the office."

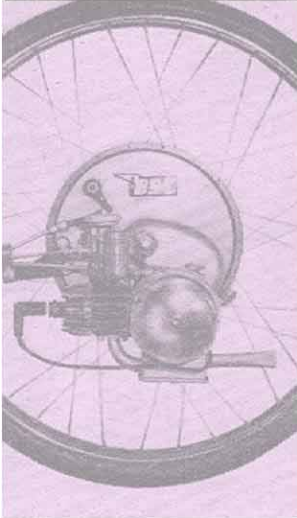

TO FOLD the cycle, loosen handlebar and seat quick releases, then turn the hinge winder until the V clamp can be withdrawn from the edges of the hinge. Turn the left-hand pedal back until in the 4 o'clock position, then fold the front of the cycle around.

TO RE-ASSEMBLE, reverse the procedure and note that the hinge clamp winder must be tightened securely with the V clamp properly engaging the outer faces of the hinges.

Finished in Peacock Blue enamel and fitted propstand.

PRICES NP.20AH (single speed) £33.50 NP.20BH (3-speed) £35.95 Tax Paid
