Francis-Barnett, amongst the pioneers of the Auto-Cycle, are today producing the "Powerbike," the last word in this type of machine.

Made to an exact specification this machine surpasses all others for *economy, reliability, silence and comfort.*

With petrol consumption in the region of 130/40 miles per gallon, the "Powerbike" is by far the cheapest means of transport.

Call and see your dealer or write us for illustrated leaflet which gives full details.
