

# TER-RRR-IFIC!

The Monza GT features a new, lighter engine with an aluminum cylinder and a radially-designed aluminum head for improved cooling.

**Monza GT** — Our latest model may be the one that sets the standards mopeds of tomorrow. The Monza GT features an improved engine package,

a double cradle tubular frame, and oversized tires and rims. And it's all wrapped up in a sleek, new design that's terrific to see.

# GAR-RRR-ELLI!

**Super Sport Ltd.** — Racy styling puts this one in a class of its own. From its Mag wheels to its horizontal gas tank to its long comfortable saddle seat, it's a thing of beauty. The Super Sport comes all dressed up in deep-gloss blue paint accented with gold pin striping. Available in single speed and two-speed automatic — your choice!

The Super Sport Ltd. features stylish Mag wheels in gold.

The Sport's anatomically-designed bicycle-type seat is fully padded and fully adjustable to carry you around in full comfort.

**Sport** — Who says money-saving transportation has to look cheap to be economical? With the Sport, you still get Garelli's record setting 49cc engine, surface-hardened gears, single chain drive, front and rear suspension and much more. But you get it all for much less than you'd ever expect.

**Rally Sport** — This is our most popular model. The Rally Sport is just the right blend of quality, price and styling. This step-through model features a long, sweeping seat and an extended chrome rear fender rack for carrying the goods. It's quiet, comfortable and a real eye catcher on the road. Choose single speed or two speed automatic transmission.

The Garelli oil injector (standard on some models) eliminates the hassle of pre-mixing gas and oil.

The VIP engine assembly is mounted in rubber bushings to dampen engine vibrations for an uncommonly smooth, quiet ride. (Standard on all models.)

**VIP 2-Speed** — The Mercedes of mopeds, the VIP features a superbly designed two-speed transmission with an automatic clutch to eliminate manual gear shifting. You get more power and more pickup. And you get it in a package that would look right at home at the Country Club.

Garelli has been a world leader in two-wheel transportation for over 65 years. In fact, around the globe, someone becomes a new Garelli owner every few minutes. Why? Garelli quality, styling and pricing. All Garelli bikes feature the finely-tuned 49cc

Garelli engine, holder of over 200 long-distance and endurance world records. All bikes feature surface-hardened, nickel chromium steel gears and crankshaft for smoother carefree running with less friction and vibration. All bikes feature strong, tubular

frames and detachable gas tanks. And they all feature the classy styling touches you only find on Garelli mopeds. If you're looking for a moped of today that will last for many tomorrows, choose Garelli. You'll be glad you did.
