

FROM THE PIAGGIO GALAXY GILERA

A company which is as dynamic and high-powered as the products it makes, which for years has triumphed in every competition it enters. GILERA means assured, aggressive technique, not only on the road and cross-country models, but also in the mopeds, undisputed heirs of the con-

struction concepts basic to the motorcycle production. Such as GILERA 50 TS: easy to manage, compact, full of zip. Outstanding above all for its great elasticity and driving precision, it is equipped with an especially brilliant motor, able to express its full power in any situation. Adding to its attractions are an

extra-comfortable saddle and an easy-to-manage handlebar, assuring relaxed driving even on long trips. Streamlined styling plus an instrument panel equipped with luminous r.p.m. indicator and speedometer, complete the picture of the 50 TS, a rising star in the PIAGGIO galaxy.

50 TS is a GILERA product.

THE PIAGGIO GROUP
