H.M.W.s Available

ARRANGEMENTS have now been completed for two H.M.W. models, the Luxus and the Supersport, to be marketed in Britain. Both models have a basically similar 49.9 c.c. (38 x 44mm) two-stroke power unit producing 2.2 b.h.p. at 6,100 r.p.m. The Luxus is available in two-speed form only but both two- and three-speed versions of the Supersport are produced. Featured on the Luxus is a pressed-steel spine frame which blends into the deeply valanced rear mud-guard. The bottom-link front fork is built of pressings which embody the horn, headlamp and speedometer. Rear springing is by pivoted fork, and the 23in wheels have full-
