CYCLING "DOWN - UNDER"

MANY cyclists in Australia have a special style of their own — they ride with the handlebars reversed as illustrated here. The handlebars are easily adjustable to normal, but a favourite riding position is as shown in the picture. Hercules Cycles are as popular "down-under" as they are here at home, where you too can own a super-classy Hercu'es.

Both World-famous...

THESE two American cyclists are passing by the Capitol at Washington, U.S.A. — on cycles manufactured by Hercules in England.

Precision-built, slim and elegant, Hercules-made cycles are very popular with American cyclists. They, like you, want a well-made easy running cycle that is an eye-catcher on any road.
