PARTS LIST

MODELS CI00 & CI05

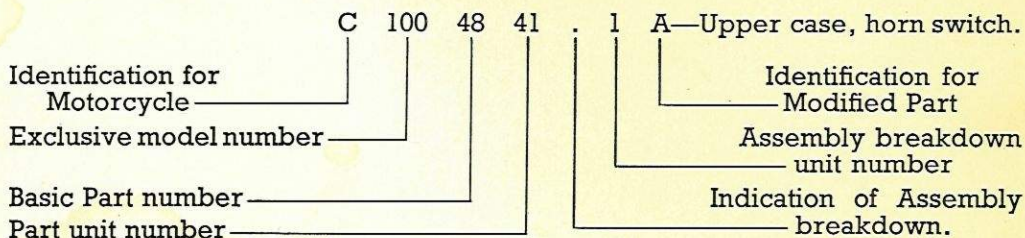

PREFACE

This Parts Catalogue covers all Parts and Service Tools available for the HONDA 50 (model C100) and the HONDA 55 (model C105).

PART NUMBERS

The prefix letter of C and figures (two or three figures from the left), represent the model of the machine to which the part numbers refer. For instance, 'C100' refers to the model C100—HONDA 50.

The following diagram indicates the breakdown of part letters and numbers:

When the letter 'Y' is inserted between prefix C and 100, as shewn below, the 'Y' indicates a Part provided for special purposes. Example: C Y 100 64 33 B—Final drive sprocket.

ENGINE and FRAME numbers

When ordering parts it is advisable to quote the engine and frame numbers of the machine for which the parts are required. The engine number will be found on the left-hand side of the crankcase and the frame number is stamped on the left-hand side of the frame, adjacent to the toolbox cover. Numbers should be quoted in full exactly as they appear on the machine.

Complete part numbers and descriptions should be quoted when ordering parts.

Engine and Frame numbers should always include the prefix letter prior to the number, e.g. C102-B015527 Frame No.

C102E-39857 Eng. No.

ENAMELLED PARTS

Orders for enamelled parts should clearly state the colour required either in full or abbreviated, as follows:

Green — G1 Red — R2 Columbia Blue — PB2

NUTS, BOLTS, SCREWS, WASHERS, COTTER PINS, etc.

are abbreviated as follows:

Shape Identification		
B — Bolt	H — Hexagonal	P — Pan (screw)
N — Nut	S — Slotted	F — Flat
J — Screw	C — Cup or Blind	O — Oval
W — Washer	R — Round	P — Flat (washer)
PC — Cotter Pin	L — Thin (nut)	L — Lock or spring washer
GB — Journal Ball Bearing	W — Welding	T — Taper
Cr — Chrome		

All dimensions quoted in this parts list are in millimetres.

Carriage and packing is charged on orders under £10 in value.

ALTERATIONS WITHOUT NOTICE

We reserve the right to make alterations and additions to parts, part numbers and prices without prior notification.
