STABILITY in PRICES of J.E.S. machines ASSURED

Many orders are being withheld as reduction in prices is expected, we therefore wish to make matters quite clear regarding the famous little J.E.S. machines

We have very carefully measured production cost, and have also anticipated further slight reductions in cost of material and have fixed our prices so low, that it will not be possible to reduce them *during this season.*

Now should the unexpected happen, and we are able to reduce before Oct. 1st, 1921, we will refund on all machines purchased within 6 months of date of reduction, 25 per cent. of the difference between the price paid, and the new price; on machines purchased within 4 months, 50 per cent.; on machines purchased within 2 months, 75 per cent.; and on machines purchased within one month the full difference.
