MOTOR-ASSISTED BICYCLES.

Sir,—In reference to "B.Y.'s" letter of the 2nd inst., re the J.E.S., I would like him to know that I find this machine will do anything from 5 to 25 m.p.h. at a consumption of 160-180 m.p.g.

I might also say that when it is on the stand it will start from cold the first kick of the pedal, provided, of course, it is in tune.

I had one myself, second-hand, and it would pull two men on cycles, one on each side of me, up moderate hills. I have also pulled one man on a cycle for sixteen miles of bad roads without a hitch.

MYSTERIOUS NOISES.

Sir,—Having recently had occasion to retime the ignition of my 8 h.p. machine, I took the machine out for
