The easy hand start does away with those damaged shoes and bruised ankles

In these days of mobilisation, machinery tends to become too complicated and too expensive ! It becomes a worry. Not so with the CONCORDE Automatic.

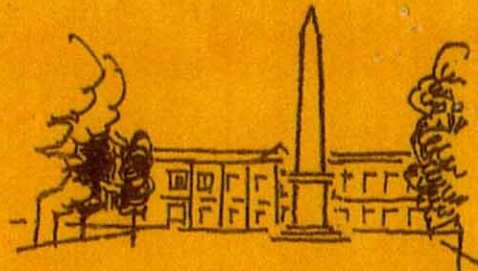

With the hand starter the silent engine purrs into life and gently, without effort, pulls smoothly away; no gear changing. Just off and cruise at any speed up to 40 m.p.h. even with pillion passenger !

With the CONCORDE automatic you have no traffic problems; these are automatically solved for you.

A turn of the wrist puts the scooter in motion. No jerky clutch lever to worry about. Just one control and you are away.

**WHAT OTHER SCOOTER OFFERS THIS AND 155 m.p.g. ?**
