

The Moby X1

Designed to give
more pleasure
to your leisure.

MOTOBECA

The world's largest moped manufacturer.

Why walk? the Moby X1 will carry you there!

The amazing Mobyette portable motorised two-wheeler.

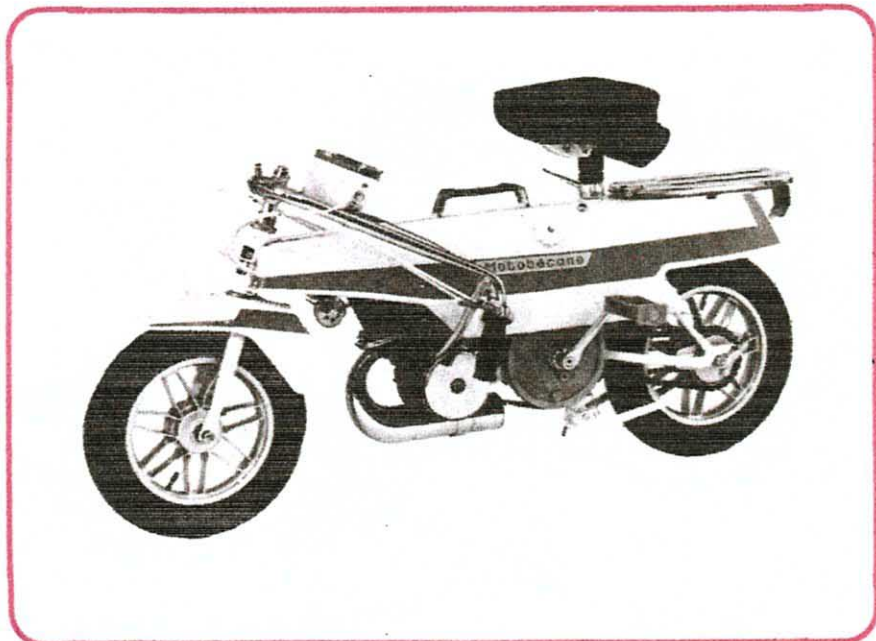

Here's the answer to the usual problem of transport to complete your pleasure when you're out boating, caravanning, etc. A motorised bike that's been especially built for carrying around—it's even got a handle!

You won't even notice it, for the Moby X1 folds into a lightweight (approx. 65 lbs), small compact unit, by just folding the handlebars and pushing down the saddle. And it only takes seconds to have it ready for the road again.

Easy to ride and fully automatic so there's no gear changing. You can glide along on cushion tyres up to 20 mph for mile after mile using hardly any petrol (which is held in a special airtight tank). And remember, you don't even need a special licence, your car licence covers you.

The Moby X1 is designed to add more pleasure to a host of outdoor activities, so enquire below for the name of your nearest dealer.

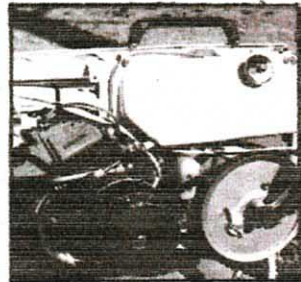

Flashing indicators are not standard equipment for the United Kingdom.

STURDY FRONT WHEEL SHOWING LARGE SECTION COMFORT TYRE AND ARRESTING HUB BRAKE.

WITH VALANCE REMOVED TO DISPLAY LEAK PROOF FILLER CAP, TELESCOPIC SEAT PILLAR AND COMPACT ENGINE UNIT.

The right is reserved to alter or modify specifications without prior notice.

**Mobyette the world's top selling moped
established in this country for over 22 years.**
