Thoroughbreds of proved reliance, Norman cycles lead the way with models like the Invader Super Eight. Complete with Benelux gear it gives top value, like its companions Sabre and Conquest. The Norman range offers a machine for every type of rider.

Tough enough to face gruelling conditions, but always a pleasure to handle, Norman lightweight motorcycles are universally popular. The spring frame models have made their mark—like the new front and rear suspension; and the amazing uni-twin Anzani-engined machine.
