

# COVENTRY CAVALCADE

A good show is 'Northerner's' verdict on this exhibition. He comments on some of the better entries among a good supply

WORKING MODELS ALWAYS attract more attention from the public than there was no at the exhibition

or four samples of their work were exhibited in this section. A 1/2 in. scale Great Central 4-2-2 engine, the prototype of which Mr. Taylor senior drove many years ago, was included.

ject engine in the show

personised pasche-  
 fact... fortunately the weather  
 was fine!  
 h It was also outside that I saw  
 y one of the most interesting mecha-  
 nical devices at the show. It was  
 I not an exhibit—it was a motorised  
 e bicycle leaning against a wall.  
 of The power unit was a 50 c.c.  
 ne engine built to the design of the  
 y, owner, N. M. Owst of Leicester.  
 ing in. It ran well but it should have been  
 ay. on the other side of the wall. ■
