

RIGID. RAPID. RELIABLE.

"CHARACTER" is as valuable in a bicycle as in a human being. The "Raleigh" is known throughout the world as the "Rigid, Rapid, Reliable" bicycle, and it has won this fame through years of the severest test. "The 'Raleigh' is the only bicycle bearing a true and just character," writes Mr. A. E. Chard, of Deal. The "Raleigh" is all steel; no malleable iron castings, as used in other bicycles. In every respect it is built to last, and that is why it carries its **everlasting guarantee.**
