

Some New Raleighs.

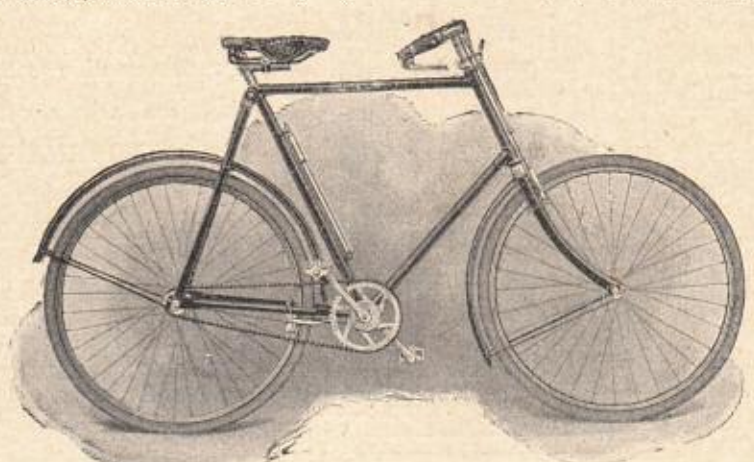

It will come as a surprise to many to hear that the Raleigh Cycle Co., Ltd., Nottingham, will not exhibit at any cycle show this year, but will hold a special show of their own at their London depot, 41, Holborn Viaduct, E.C., from November 23 to the 1st of December. They will exhibit their new models for 1907. The prices have been reduced in various direc-

are good, strong, serviceable machines, and bear the trade mark and full guarantee of a firm of world-wide repute. The specification includes Clincher tyres and three-coil saddle. The Raleigh feather-weight scales only $25\frac{1}{2}$ lb., and all the points which make for easy riding in the ordinary roadster design have been retained—long wheel base, full sweep of front forks, and

tions, the most sweeping reduction being in the price of the Modele Superbe. In this model everything that can be embodied in a cycle is included, and nothing has been spared to make the machine a cycle of the highest grade. The price of this model, which we illustrate, has been hitherto £25, but, having made arrangements for a large output of this model, the Raleigh Company

the scientific reinforcement of every joint, to ensure comfort as well as safety. Special feather-weight Clincher tyres and Brooks' saddle are included with this model. The Raleigh Company have not dropped tandems or tricycles. The Raleigh three-speed tricycle, listed at £26 5s., appeals to a large number of people who do not care to ride a bicycle, and to whom the

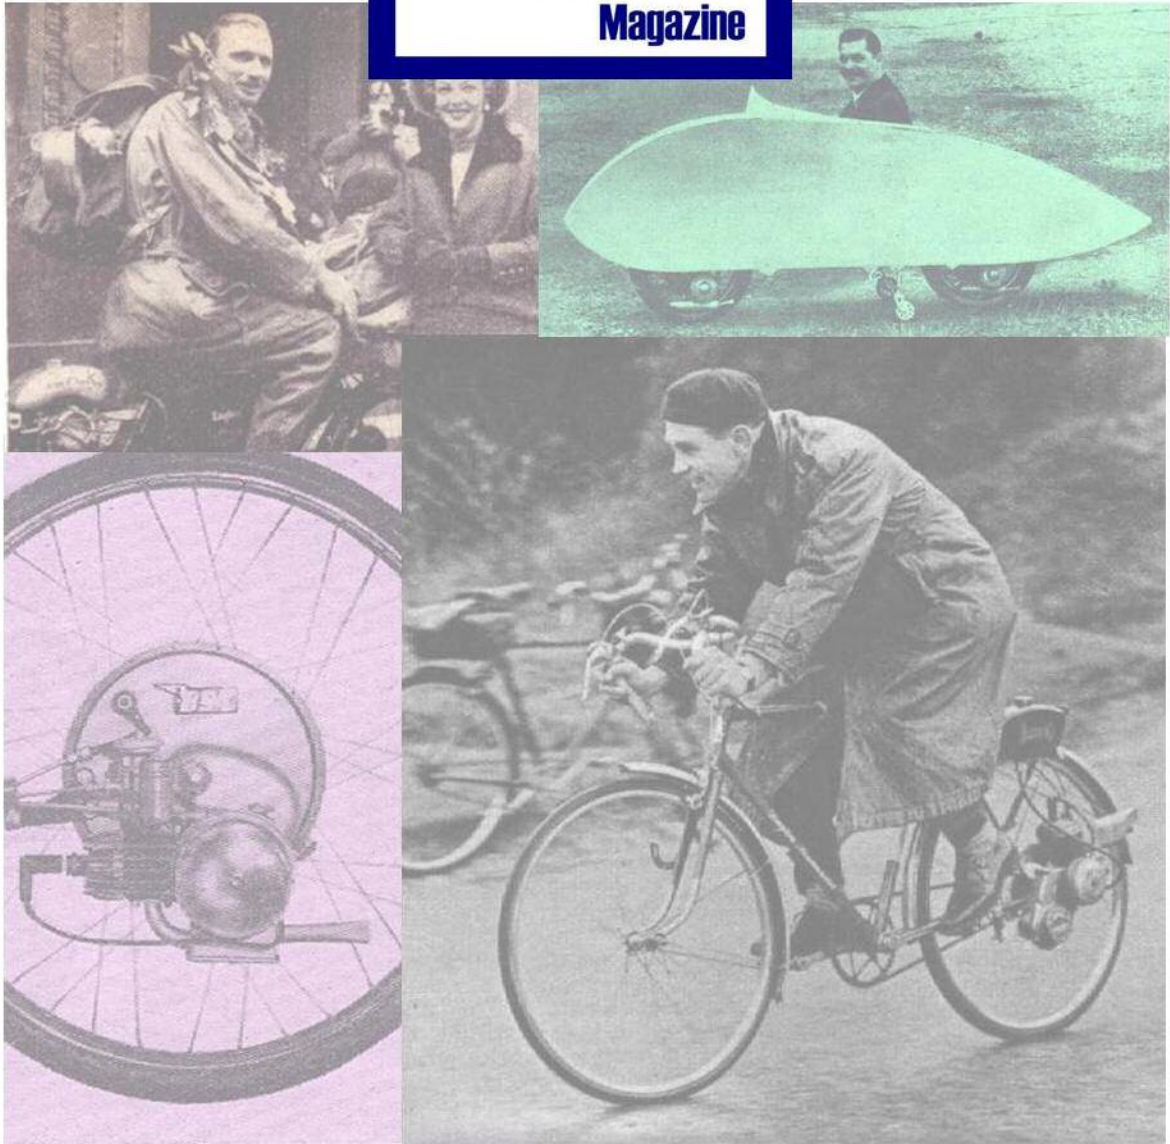

have reduced it to £15. The specification of the machine includes the patent triangulated frame with eccentric chain adjustment, Sturmey-Archer three-speed gear, A-Won clincher tyres, and Brooks' saddle. This model is made for gents as well as ladies.

Our second illustration depicts the Standard Raleigh. These are medium-priced cycles, listed at £8 8s. They

limitations of the single speed tricycle do not appeal. It is specially constructed with the well-known cross frame and the Sturmey-Archer three-speed gear. The tandem, No. 15, includes the triangulated frame, and is sold at £22. The last two years have seen the tandem growing steadily in favour among the riding public.
