

IceniCAM Information Service

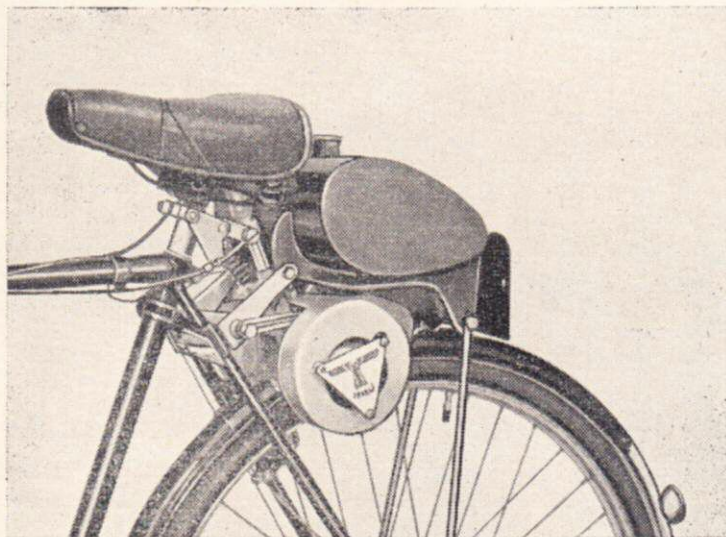

www.icenicam.org.uk

All these advantages ONLY with

THE
Teagle *Cycle motor*

Quality built to the highest standard

1. Weight of complete Engine including Cowling, Bantamag and Carburettor 8lbs.

2. Weight of Complete Unit including Controls, Tools, Number Plates, etc., under 15lbs.

3. The Controls are light—can be easily operated by a child of 10.

4. Very powerful Engine with high performance developing over 1ft. lb. torque at 4,000 r.p.m.

5. Blower cooling which prevents overheating in all weather conditions.

6. Low petrol consumption in relation to power output, 160-220 miles per gallon according to Driving conditions.

7. Cruising Speed of 25/30 miles per hour with higher maximum.

8. Service Exchange Engines available through the post by return at maximum charge of £4 (when not covered by Guarantee.)

9. The Engine Unit entirely insulated by rubber from machine for vibration free running.

10. The capacity of Petrol Tank over three-quarters of a Gallon.

11. Position of Unit on Cycle ensures maximum cleanliness and easy Servicing.

The MARK of Efficiency

— The worlds finest Cyclemotor value —
Price £17 · 0 · 0

WITH BLOWER COOLING, TOOLS, NUMBER PLATES, LICENCE HOLDER,
(With Dynamo Lighting Coils, £17 · 10 · 0)

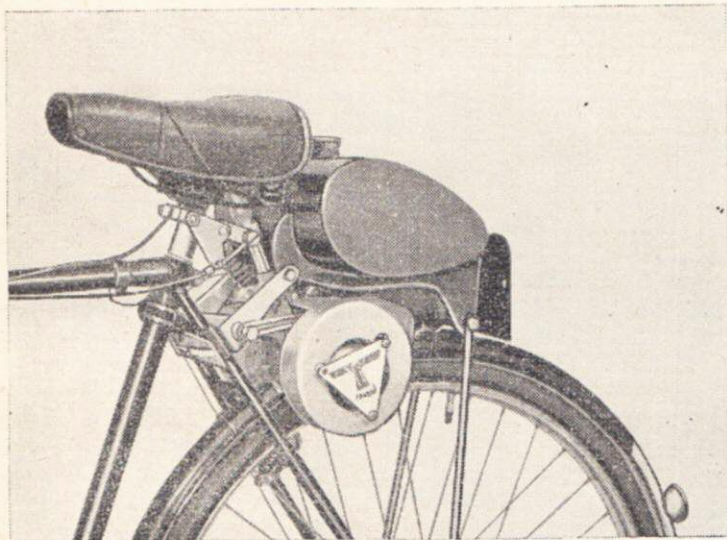

See your cycle agent or write to the manufacturers

The GEM of cyclemotors

THE MOST ADVANCED AND SIMPLEST TWO-STROKE MADE

Make way for a TEAGLE! There's **NOTHING** on the road to-day to compare for Power Performance—or price. Superbly manufactured in the Teagle tradition of fine craftsmanship—tough, simple and thoroughly reliable.

Yet if it's speed you want, this little 'GEM' will cruise at 25-30 m.p.h. with still higher maximum. And it's positioned behind the saddle, out of the way of mud and grit and easy to service.

- ★ *Very powerful 49 c.c. engine, blower cooled—preventing overheating in all weathers.*
- ★ *Very economical in relation to power output—160-220 m.p.g. according to conditions. $\frac{3}{4}$ gallon tank.*
- ★ *Vibrationless. Entire unit insulated from the cycle by rubber mountings.*
- ★ *Mono-block casting of Cylinder, Crankcase and Outrigger Bearing Bracket, ensures exceptional Strength*
- ★ *Service Exchange Engines available through the post, by return. Only £4 (When not covered by Guarantee)*

£17 With Blower Cooling, Tools, Number Plates, Licence Holder. With Dynamo Lighting Coils, 10/- extra

See your Cycle or Motor Agent—or write to manufacturers for full details.
