

NEW ON THE MARKET

TINA FAIRING: Giving very much more weather protection to the Tina scooter rider, the new Blacknell Riviera fairing is seen here fitted (l).

Blacknell fairing for Tina

Designed exclusively for the Triumph Tina scooter is the new Riviera fairing by Blacknell Motors Ltd., of Arkwright Street, Nottingham.

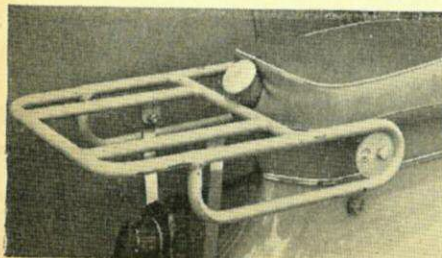

This fairing has been produced to give more protection to the rider than a legshield. Measuring 30in high and 20in wide, it is easily attached by means of six bolts already on a Tina's shield. To give a waterproof joint, the inside edges of the fairing are fitted with rubber beading.

Finished in off-white, giving a pleasing two-tone effect with the lilac of the Tina, the fairing weighs 2lbs 6ozs and retails at £5 15s. 0d.

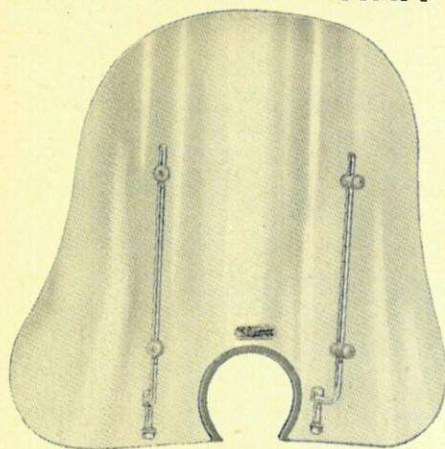

Craven carrier for Tina

Available now to the trade is a sturdy rear carrier for the Triumph Tina scooter. The carrier, produced by Craven Equipment, of 61 Eden Grove, London, N.7., follows the style of those for Triumph motor cycles with rear

CARRIER FOR TINA: Available to the trade now is the Craven carrier for the Triumph Tina lightweight scooter.

FOR TRIUMPH "TINA"

This screen has a double curvature perspex, the rods are heavily Chrome plated, and the plastic trunnions are our own patent design.

REF. M207.
