## SPARK PLUGS

### FOR PEAK PERFORMANCE

NGK's astounding successes include outright World Championship Wins in the 50 cc, 125 cc, 250 cc and 350 cc classes, plus 2nd in the 500 cc class. NGK also fired Alf Hagon's 300 cc J.A.P. when he won the World Standing Start  $\frac{1}{4}$  mile Record, Bob Leppan's Triumph-engined Gyronaught when he won the World Speed Record and Ron (King of Brands) Chandler used NGK when he became British 500 cc Champion.

The amazing racing history of NGK was achieved by research for one ultimate end—to provide road-going motor cyclists with the widest heat range spark plug in the world.

Every NGK standard spark plug has a heavy copper centre electrode similar to that used in Racer plugs. No other manufacturer offers this.
