

Johnson and Co. have an extensive range from which to make the choice of enamel or cellulose finish.

EDWARD WILLIAMS..... 91

WILLIAMS'S stand is always well patronised by the clubman. Of particular interest to the enthusiastic light-weight rider is the super light Dureel set, which consists of a specially treated duralumin five-pin detachable chain-wheel and a pair of extra light high-tensile steel cranks, chromium plated. A set, complete with a 46T chainwheel and 6½ in. cranks, weighs 1 lb. 4 ozs.

E. A. RADNALL AND CO., LTD....92

THE "Gripit" de luxe side-pull brake will be examined with interest. This brake is fitted with a patent adjustable ring bearing that allows the brake to work with a silky movement and eliminates all side play and loss of braking power.
