**WILLIAMS**

**72**

Special attention should be drawn to the Williams's flanged chainwheel sets. A set comprises a patent cold forged flanged steel chainwheel, a pair of heat-treated cranks, with improved bevelled edges, and two cotters, polished and well packed. The "Dureel" and "Club Racer" sets will also be inspected with interest by all connoisseurs. A novel feature on this stand will be a clock built entirely from standard chainwheels and cranks. Apart from this being an accurate time-keeper, it demonstrates the reliability and accuracy of this firm.

**WRIGHT SADDLE CO. 154**

A complete range of first-class saddles will be on view on the stand of the Wright Saddle Company of B...
